sure you added the right file?  
here it returns exactly what you expect

Invalid Data Source: /home/giovanni/Downloads/interpreter\_1\_ is not a valid or recognized data source

i have tried again, it makes QGIS freeze

I don't add a extension or something, only the attachment, that i try to load as a vector

I see that you load it on linux, try to do this on windoes, maybe is a OS specific bug

##### #3 - 2015-06-11 06:01 AM - Giovanni Manghi

IOW seems to be a problem with the GPSBabel driver in OGR.

#### #5 - 2015-06-11 07:23 AM - Jürgen Fischer

- Operating System deleted (windows)
- OS version deleted (7)

#### #6 - 2015-06-17 09:12 PM - Martin Dobias

Btw. not an issue with GDAL 1.10.1

#### #7 - 2016-10-07 05:45 AM - Even Rouault

- Status changed from Open to Closed

Cannot reproduce with latest QGIS 2.16.3 / GDAL 2.1. The OSM driver triggers, but doesn't like this file, which is another issue
