In QGIS 2.12 there are the following options (Settings/Options/Digitizing/Snapping):

- Open snapping options in a dock window
- Default snap mode
- Default snapping tolerance
- Search radius for vertex edits

"Snapping mode" (Current layer, All layers) is missing.

#3 - 2015-11-30 02:15 PM - Saber Razmjooei

- Status changed from Closed to Open

#4 - 2017-05-01 12:47 AM - Giovanni Manghi

- Easy fix? set to No
