

QGIS Application - Bug report #12965

Legend item name not updated in Composer when renaming layer

2015-06-15 12:10 AM - Miroslav Umlauf

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Affected QGIS version:	2.8.2	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: end of life
Crashes QGIS or corrupts data:	No	Copied to github as #: 21044
Description		
When renaming the layer name in the layers docker it doesn't change legend item name in the Composer. Interestingly in Legend items docker it get automatically changed but nothing happens on the canvas. Also it works ok when using categories and not only single symbol. So only if single symbol is used.
