

QGIS Application - Bug report #13066

On upgrade from OSXMavericks to Yosemite (regardless of distro!), some Google Earth related plugins not working correctly

2015-07-02 09:57 PM - David Douglas

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:		
Affected QGIS version:	2.6.1	Regression?: No
Operating System:	Mac OSX	Easy fix?: No
Pull Request or Patch supplied:		Resolution: invalid
Crashes QGIS or corrupts data:		Copied to github as #: 21136
Description		
I got a new mac. The old one still works and I wisely stayed away from updating it to Yosemite knowing the issues involved. Alas I got a new mac and downgrading is hard enough to make me start to appreciate the aesthetic improvements of the new version. Anyway, when trying to use the GEarthView plugin on Yosemite with any distro of QGis, the function is failing and I'm getting this error: An error has occurred while executing Python code: Traceback (most recent call last): File "/Users/daviddouglas/.qgis2/python/plugins/gearthview/gearthview.py", line 1865, in run startGeoDrink_Server(self) File "/Users/daviddouglas/.qgis2/python/plugins/gearthview/gearthview.py", line 107, in startGeoDrink_Server GDX_Publisher(self) File "/Users/daviddouglas/.qgis2/python/plugins/gearthview/gearthview.py", line 828, in GDX_Publisher if geom.type() == QGis.Point: AttributeError: 'NoneType' object has no attribute 'type' Python version: 2.7.6 (default, Sep 9 2014, 15:04:36) [GCC 4.2.1 Compatible Apple LLVM 6.0 (clang-600.0.39)] QGIS version: 2.6.1-Brighton Brighton, Python path: ['/Applications/QGIS.app/Contents/MacOS/../Resources/python/plugins/processing', '/Applications/QGIS.app/Contents/MacOS/../Resources/python', u'/Users/daviddouglas/.qgis2/python', u'/Users/daviddouglas/.qgis2/python/plugins', '/Applications/QGIS.app/Contents/MacOS/../Resources/python/plugins', '/Library/Frameworks/SQLite3.framework/Versions/C/Python/2.7', '/Library/Frameworks/GEOS.framework/Versions/3/Python/2.7/site-packages', '/Library/Python/2.7/site-packages/numpy-override', '/Library/Python/2.7/site-packages/matplotlib-override', '/Library/Frameworks/GDAL.framework/Versions/1.11/Python/2.7/site-packages', '/System/Library/Frameworks/Python.framework/Versions/2.7/lib/python27.zip', '/System/Library/Frameworks/Python.framework/Versions/2.7/lib/python2.7', '/System/Library/Frameworks/Python.framework/Versions/2.7/lib/python2.7/plat-darwin', '/System/Library/Frameworks/Python.framework/Versions/2.7/lib/python2.7/plat-mac', '/System/Library/Frameworks/Python.framework/Versions/2.7/lib/python2.7/plat-mac/lib-scriptpackages', '/System/Library/Frameworks/Python.framework/Versions/2.7/Extras/lib/python', '/System/Library/Frameworks/Python.framework/Versions/2.7/lib/python2.7/lib-tk', '/System/Library/Frameworks/Python.framework/Versions/2.7/lib/python2.7/lib-old', '/System/Library/Frameworks/Python.framework/Versions/2.7/lib/python2.7/lib-dynload',
