

QGIS Application - Bug report #13107

select feature not working if I have over 600 ~700~ objects in postgis layer

2015-07-10 06:39 AM - baditaflorin -

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Map Canvas	
Affected QGIS version:	2.8.2	Regression?: No
Operating System:	windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: not reproducible
Crashes QGIS or corrupts data:	No	Copied to github as #: 21172
Description		
I want to select 11000 from a QGIS layer, a postgis layer to be specific, and after 500/700 features, i will get 0 features selected.

- Status changed from Open to Feedback
- Category set to Map Canvas
- Subject changed from select feature not working IF I HAVE OVER 600 ~700~ objects in postgis layer to select feature not working if I have over 600 ~700~ objects in postgis layer

Select how? Manually from the map canvas?

If yes then I cannot confirm, I just tested in a layer with hundreds of thousands of features and I can manually drag the mouse as select any number of features.

Tested on both Linux and Windows.
