

QGIS Application - Feature request #13131

Interoperable styling of geojson objects

2015-07-20 12:37 AM - armin11 -

Status:	Open	Resolution: Copied to github as #: 21195
Priority:	Normal	
Assignee:		
Category:	Symbology	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>It would be a cool feature to have a unified styling of geojson objects. One existing approach is https://github.com/mapbox/simplestyle-spec/ .</p> <p>The implementations are https://github.com/mapbox/simplestyle-spec/wiki/Implementations</p> <p>As you see also, github supports the styling out of the box ;-)</p>
