

QGIS Application - Bug report #13134

Qgis crash with large sqlitle

2015-07-21 06:32 AM - Hildermes jose Medeiros Filho

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Vectors	
Affected QGIS version:	2.8.1	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 21198
Description		
<p>Im trying to edit rivers and roads vectors in sqlitle format, qgis 2.8 crashes. Same data in shapefile has no problems with edition and topology verification.</p> <p>Affected verions 2.8.0/2.8.1/2.8.2</p> <p>To work with sqlitle I'm using QGIS 2.2 or 2.4</p> <p>Splitting the files in 2 allows edition, but some times its crashes.</p>

Does it still crashes on 2.10? Can you pleas attach (or link) the offending sqlite db? Can you confirm that on 2.2/2.4 you have no crashes?

#3 - 2015-07-31 11:17 AM - Hildermes jose Medeiros Filho

No, thank you it is working.

I'll ask my support team to upgrade it and see if works with postgresql too. Sorry, I cant send you the data without IBGE authorization.

Thanks you, again.

so on qgis 2.10 is ok, right?

#5 - 2015-07-31 12:22 PM - Hildermes jose Medeiros Filho

Yes, but I need that the TI sector to install it and test it.

for now it is solved.

Do you know why it was crashing?
