<b>Pull Request or Patch supplied:</b>		<b>Resolution:</b>	fixed/implemented
<b>Crashes QGIS or corrupts data:</b>		<b>Copied to github as #:</b>	21219
<b>Description</b>			
Ubuntu has shipped with Qwt 6.1 since vivid <a href="#">[1]</a> , and the Debian maintainers plan to update to Qwt 6.1.2 <a href="#">[2]</a> in the near future too.  The embedded copies for qwt polar-0.1 & qwt polar-1.0 don't support Qwt > 6.0.0, qwt polar-1.1 does <a href="#">[3]</a> .

#### History

##### #1 - 2015-08-16 11:31 AM - Jürgen Fischer

vivid also ships Qwt 5.2 (see <http://dash.orfeo-toolbox.org/buildSummary.php?buildid=195327>). That what the vivid nightlies use.

##### #2 - 2016-03-12 10:22 AM - Bas Couwenberg

Debian has transitioned to Qwt 6.1 and the Ubuntu release after xenial is likely to follow.

The Qwt 6.1 packages are required for Qt5 support.

##### #3 - 2016-03-17 05:53 AM - Jürgen Fischer

- Resolution set to fixed/implemented
- Status changed from Open to Closed

Fixed in commit:a9cb990 (and commit:c3881d4)
