QGIS Application - Bug report #13185
Qgis Layer Properties Cancel function it`s not working

2015-08-05 09:31 AM - baditaflorin -

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:				
Affected QGIS version:	2.8.2		**Regression?:**	No
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	
Crashes QGIS or corrupts data:			**Copied to github as #:**	21247

Description

If i press Apply, i will see what was modified on the map.

If i pres then Cancel, i will remain with the latest modification

Expected behavior : Revert to the style that i had before, not see the new style, even if i hit cancel.

History

#1 - 2015-08-21 12:01 PM - Anita Graser

- OS version deleted (7)

- Operating System deleted (windows)

Imho, the intended and implemented behavior is:

- OK: Apply settings and close dialog
- Apply: Apply settings but leave dialog open
- Cancel: Close dialog without applying the settings

There is no "test these settings (but I might change my mind)" button right now.

#2 - 2015-08-21 12:03 PM - Anita Graser

- Status changed from Open to Closed

With the redesign of the style dialog, I think this is not an issue anymore. Please reopen if necessary.
