QGIS Application - Bug report #13214
Fields expression editing error in layer properties

2015-08-12 09:45 PM - James Harvey

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Expressions			
Affected QGIS version:	2.10.1	**Regression?:**	No	
Operating System:	Windows	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:		**Copied to github as #:**	21275	

Description

I have three autogenerate fields at the end of my fields list.
When I try clicking on the button to edit my expressions it always goes to the first expression in the field ordering. Something might be out with the linking of the button to edit these?

Associated revisions

Revision e800419c - 2015-08-16 08:08 AM - Nyall Dawson

Fix edit button always edits first virtual field (fix #13214)

History
