

QGIS Application - Bug report #13285

QGIS Server crash with line pattern fill symbology

2015-08-31 12:35 AM - michele zanolli

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	QGIS Server	
Affected QGIS version:	2.8.3	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 21344
Description I'm using QGIS Server + QGIS-Web-Client. When I'm trying (QWC) to print to PDF a simple layer with line (or SVG) pattern fill, QGIS Server crashes. See a very simple qml attached. Tested with Debian 8 + QGIS LTR 2.8.3 Can anyone confirm? Thanks, michele		

History

#1 - 2015-08-31 12:36 AM - michele zanolli

- File *line_pattern_fill.qml* added

#2 - 2015-10-08 12:50 AM - Giovanni Manghi

- Status changed from Open to Feedback

likely a duplicate of #9763

a solution is here (and I think is also in the manual)
