<b>Description</b>		
Recently, I have a weird thing in a legend entry: the line smybol is way too large and I can't see the text if the dock is not large enough:

Hi Denis,

I have tried to reproduce with today's master tests/testdata/lines.shp and failed (legend looks OK both in legend pannel and composer).

Can you provide a sample project please ?

This is very easy to reproduce. I created a project with tests/testdata/lines.shp and you can watch what is happening in this video:

<http://lrssvt.ns0.it/img/13302.ogv>

**#6 - 2015-09-07 09:45 AM - Vincent Mora**

Ok, reproduced, it's on legend refresh that the size increases. I think I know where the problem is, will fix that asap.

Thanks for the video.
