

QGIS Application - Feature request #13309

Rounded corners on print layout elements

2015-09-01 01:23 PM - Jamie Portman

Status:	Open	Resolution:  Copied to github as #: 21367
Priority:	Normal

Category:	Map Composer/Printing	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
<p>It would be great to add options for rounded corners on print layout elements other than the shapes - mostly the Legend and Map Frame. At the moment, if i want a legend with roudbed corners, it is required to make the legend have no fill/border and then add a rectangle behind... that is fine for a one off, but if making an Atlas with a legend that changes, the user has to keep resizing the box to match the legend.</p>
