

QGIS Application - Feature request #1331

no function to union marked objects

2008-09-29 11:41 AM - Gerhard Spieles

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Digitising	
Pull Request or Patch supplied:		Resolution: duplicate
Easy fix?:	No	Copied to github as #: 11391
Description		
<p>Hello,</p> <p>very often, I have to union marked objects in a layer. Unfortunately, there is no function in qgis. (the split function is realized)</p> <p>The plugin from qgis repository allows only to union all objects from one or two layers to a new layer.</p>

Hello jef,

to duplicate brings not the wished result.

When you mark p.e. three polygons in layer and duplicate (copy and paste), then you have three new polygons and the marked polygons.

What I mean is to make one polygon from the marked three polygons. (transform the marked polygons in one polygon ---> see attached pdf).

I'm not telling you to duplicate anything. I'm just saying that this ticket addresses the same enhancement ticket #1122 is requesting - union is the same as merging, isn't it?

Therefore this ticket is a duplicate of ticket #1122.

Sorry,

i didn't get it first time.
Ticket #1122 is actually the same.

Thanks
Gerhard
