QGIS Application - Bug report #13320
Unable to set single band raster to pseudocolour

2015-09-03 04:09 AM - Edward Rollason

Status:	Closed			
Priority:	High			
Assignee:				
Category:				
Affected QGIS version:	2.10.1		**Regression?:**	No
Operating System:	OSX		**Easy fix?:**	No
Pull Request or Patch supplied:	No		**Resolution:**	duplicate
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	21376

Description

I am unable to change the colour of a single band raster image from single band grey to single band pseudocolour. Setting up the pseudocolour (set min/max, classify etc) works fine but clicking apply has no effect on the raster display. The same issue is being reported here as a mac only issue (but I can't find a corresponding issue report):

https://www.reddit.com/r/gis/comments/3ezga9/qgis_2101_mac_10104_unable_to_stylize_raster_as/

I have tested this error against .img, .tif and .asc files.

QGIS 2.10.1 (Kyngchaos install)
Mac OSX Yosemite 10.10.4
