

QGIS Application - Bug report #13340

In MSSQL vector layer, adding new attribute column in attributes table, new column disappear after save.

2015-09-10 08:38 AM - Maurizio Petrini

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Attribute table	
Affected QGIS version:	2.10.0	Regression?: No
Operating System:	qgis	Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 21393
Description		
<p>The message after save is: "Impossibile applicare le modifiche al vettore" (impossible to apply the mods to vector)</p> <p>In the MSSQL server database table new field is correctly present, and when qgis project is closed and re-open the field is correctly present in the attribute table.</p> <p>Editing one field in the attribute table in MSSQL vector layer, the modify will not be saved in mssql DB table.</p>
