

QGIS Application - Bug report #13384

"Drop existing one" option not really understandable in DB Manager export table dialog

2015-09-20 12:25 PM - Harrissou Santanna

Status:	Closed	
Priority:	Low	
Assignee:	Giuseppe Sucameli

Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 21436
Description		
<p>Open DB Manager and try to export to vector file one of the tables of the database; In the opening dialog, there's an option labelled "Drop existing one". What's it about? I think it's about deletion of the to-be-exported table (I'm not sure though), but i think it should be better labelled or have an informative text while hovering.</p>

[DBManager] in import/export dialog, replace "Drop existing one" text to a more meaningful one (fix #13384)

History

#1 - 2015-09-21 11:01 AM - Giuseppe Sucameli

- Target version changed from Future Release - High Priority to Future Release - Lower Priority
- Status changed from Open to Feedback
- Priority changed from Normal to Low

Somehow duplicated of #12961. The text was replaced with proposed "Replace existing table" one.

BTW if we are exporting the selected table to file (instead of to a different database), that text is meaningless...
It must be changed to something like "Overwrite destination (if exists)".

Suggestions?

#2 - 2015-09-21 11:11 AM - Giuseppe Sucameli

Wrong, the text is different between export to file (i.e. "Drop existing one") and to a different database (i.e. "Replace existing table").
