

## QGIS Application - Bug report #13415

### Import into PostGIS - Locale bug

2015-09-24 06:43 AM - Edson Melanda

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Processing/QGIS	
<b>Affected QGIS version:</b>	2.8.3	<b>Regression?:</b> No
<b>Operating System:</b>	OsX	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> end of life
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 21464
<b>Description</b>		
<p>The Import into PostGIS dialog does not find any connection to postgres database, when the language is Portuguese-BR and is the first time you use. It works well if you change to english, uses it, and than it works fine in any language.</p> <p>Also, the same happens using GDAL Import Vector in Postgis.</p>		

#### History

##### #1 - 2016-01-13 08:42 AM - Alexander Bruy

- Status changed from Open to Feedback
- Category changed from GDAL Tools to Processing/QGIS

There is no Import into PostGIS tool in the GDALTools plugin. I suspect that this bugreport related to Processing.

##### #2 - 2016-04-09 12:33 PM - Giovanni Manghi

- Operating System changed from MAC to OsX
- Status changed from Feedback to Open

##### #3 - 2017-05-01 01:06 AM - Giovanni Manghi

- Easy fix? set to No
- Regression? set to No

##### #4 - 2019-03-09 03:12 PM - Giovanni Manghi

- Resolution set to end of life
- Status changed from Open to Closed

End of life notice: QGIS 2.18 LTR
