## History

### #1 - 2015-09-25 07:14 AM - Saber Razmjooei

- Resolution set to duplicate
- Target version set to Version 2.12
- Status changed from Open to Closed

I am re-opening the original ticket.

### #2 - 2015-09-29 02:35 AM - Karl Kastner

- Status changed from Closed to Reopened

I can confirm this on QGIS 2.8.1 "Wien" (Ubuntu 15.4). This issue is not resolved when calling repack / assigning new IDs and does not need SAGA raster processing to be reproduced. Does any one know a work around?

### #3 - 2015-09-29 02:39 AM - Saber Razmjooei

- Status changed from Reopened to Closed

The work-around is to save the file as a new file.

Please add your comments to the original ticket #11007

Thanks,
