

QGIS Application - Bug report #13499

Editing algorithm properties collapses input and output trees in Processing Modeler

2015-10-03 07:36 AM - Anita Graser

Status:	Closed	
Priority:	Normal	
Assignee:	Victor Olaya	
Category:	Processing/Modeller	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 21544
Description		
To reproduce: 1. open a model 2. expand the input and output trees of an algorithm 3. edit the algorithm and press OK --> the input and output trees collapse This makes using the modeler quite annoying because the user has to always reexpand the trees.
