

## QGIS Application - Feature request #13500

### Make it possible to interactively connect Model components in the model view

2015-10-03 07:50 AM - Anita Graser

<b>Status:</b>	Open	<b>Resolution:</b> <b>Copied to github as #:</b> 21545
<b>Priority:</b>	Normal	
<b>Assignee:</b>	Victor Olaya	
<b>Category:</b>	Processing/Modeller	
<b>Pull Request or Patch supplied:</b>	No	
<b>Easy fix?:</b>	No	
<b>Description</b>		
<p>In the current model view, users can only move components around but to actually change how the different components are connected, users have to open the corresponding algorithm editing dialog and pick different inputs from the corresponding dropdown list.</p> <p>A more intuitive and user friendly way would be if users could "redraw" the connections directly in the model view. (This is possible, for example, in FME which has a similar approach to building workflow models.)</p>
