

QGIS Application - Bug report #13555

change FOSS4G-Seoul banner to FOSS4G-Bonn banner on qgis.org

2015-10-09 02:02 PM - Jeff McKenna

Status:	Closed	
Priority:	Normal	
Assignee:	Richard Duivenvoorde	
Category:		
Affected QGIS version:	2.10.1	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 21597
Description		
<p>Similar to last year's addition of the FOSS4G-Seoul banner to the qgis.org site (https://github.com/qgis/QGIS-Website/pull/226), we should change that banner to the 2016 Bonn banner. Here are some links:</p> <ul style="list-style-type: none">- 2016 banner files: https://svn.osgeo.org/osgeo/foss4g/2016/marketing/banners/- view of several 2016 banners: http://antonpopov.de/foss4g-2016/banners/- 2016 logos: https://svn.osgeo.org/osgeo/foss4g/2016/marketing/logo/ <p>For last year, the 2015 Seoul committee provided a custom logo for qgis.org of the dimensions "940px × 300px and taking into consideration the black stuff on bottom of the banner on qgis.org". I assume that this is the same dimensions needed now. I will ask the 2016 designer for this and get back to you here.</p>
