

QGIS Application - Bug report #13583

Snapping options not saved on Windows

2015-10-13 01:15 AM - Roy Roge

Status:	Closed	
Priority:	High	
Assignee:		
Category:	GUI	
Affected QGIS version:	2.8.3	Regression?: No
Operating System:	windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 21625
Description In windows, even if you save a project with configured snapping options, snapping options are not configured when you reopen the project Create new project and load a shapefile configure some snapping options save the project and close. Reopen the project and check the snapping options, they are reseted.		

History

#1 - 2015-10-14 01:39 PM - Saber Razmjooei

- File *snap_settings_project.png* added

In my case, I saved it with the advanced mode. When I re-opened the project the snapping options showing Advanced mode but the dialog is for current layer (see attached).

Saber - that issue was fixed as of ~48 hours ago. Can you retest with current master and report if this is still an issue?

#3 - 2015-10-14 02:05 PM - Saber Razmjooei

- Status changed from Feedback to Closed

Confirmed. It works fine in master. Thanks Nyall.

#4 - 2015-10-15 12:20 AM - Roy Roge

- Status changed from Closed to Reopened

Testing on Master 2.11.0 90
Snapping option for Current layer/All layers
are still not saved;

Advanced settings are saved.

Thanks, Roy.

What code revision are you using? Works fine with all three modes in 5654eec.

#6 - 2015-10-15 01:58 AM - Roy Roge

Testing on Master 2.11.0 90 code revision f50e1a7

#7 - 2015-10-15 02:14 AM - Saber Razmjooei

It works fine on mine with the same code rev.

#8 - 2015-10-15 02:26 AM - Roy Roge

Saber are you using Windows platform?
if yes what (windows 7, 8, 10) ?

I tested on Windows 10.

#9 - 2015-10-15 02:37 AM - Saber Razmjooei

Windows 7, 64 bit - installed from OSGeo4W
Debian jessie - compiled from source

Could you disable your plugins (renaming .qgis2 folder) and try again?

#10 - 2015-10-15 02:56 AM - Roy Roge

Removing the .qgis2 folder works;

Where are those config saved, in a sqlite db?

It also works on 2.8.3 now, very strange!

#11 - 2015-10-15 03:00 AM - Saber Razmjooei

- *Status changed from Feedback to Closed*

Must have been a user preference or a plugin issue.

#12 - 2015-10-15 03:37 AM - Roy Roge

Seems to be a plugin: Semi automatic classification pulgin
