

QGIS Application - Bug report #13642

Disabling the GdalTools plugin doesn't clear its tools under Raster menu

2015-10-20 09:19 AM - Harrissou Santanna

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	GDAL Tools	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 21678
Description		
In the Plugins panel, deactivate the GdalTools plugin. Ok The tools that belong to this plugin are always listed (although not functional) in the Raster menu. If you reactivate the GdalTools plugin, a new list of tools is added to the previous one. And so on... master 4cdf05f
