

QGIS Application - Bug report #13648

After saving postgis layer edition unnecessary log message appears

2015-10-22 12:29 AM - Piotr Kania

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Digitising	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution: worksforme
Crashes QGIS or corrupts data:		Copied to github as #: 21684
Description		
<p>Hi!</p> <p>win7sp1x64, qgis-dev rev. commit:ea0ce4e</p> <p>Each time I save edits those unnecessary log message appears in the top of the screen:</p> <p>Invalid result: Could not store value 'nextval('linie_gid_seq'::regclass)' in field of type int4</p> <p>I must turn it off manually each time as it doesn't disappear by itself.</p>		

History

#1 - 2015-10-22 01:21 AM - Piotr Kania

That doesn't happen in qgis-dev rev. commit:4cdf05f

#2 - 2015-10-22 01:36 AM - Jürgen Fischer

Doesn't happen here. Please add steps to reproduce.

#3 - 2015-10-22 02:00 AM - Piotr Kania

I start edition, create one new feature, select 2 features in layer, than I merge them- everything is saved but those message appears each time.

It could be better if those message just appear in log messages panel.

Here is video- downloed and watch on your computer as dropbox reduces resolution in their player:

- Category set to Digitising
- Status changed from Open to Feedback

I also cannot confirm on the latest master on both Linux and Windows.

#5 - 2015-12-19 10:41 AM - Giovanni Manghi

- *Resolution set to worksforme*

- *Status changed from Feedback to Closed*

closing for lack of feedback.
