QGIS Application - Feature request #13662
Add CRS/SRS input parameter type

2015-10-23 08:34 AM - Giovanni Allegri

Status:	Closed			
Priority:	Normal			
Assignee:	Victor Olaya			
Category:	Processing/Modeller			
Pull Request or Patch supplied:	No		**Resolution:**	fixed/implemented
Easy fix?:	No		**Copied to github as #:**	21697

Description

It would be useful to have a CRS input type for scripts, models and runalg API.

A simple use case is Reproject layer.

The input should have two "natures":

- obtain CRS from user selection (the common QGIS's CRS selection dialog)
- obatin CRS from another input

Maybe I misunderstand your request, but ParameterCrs already available in scripts. Still missed in modeler though

#2 - 2016-04-11 12:05 AM - Giovanni Allegri

Yes,I forgot to specify for modeler and script input type (double comment syntax in script's header).
