

QGIS Application - Bug report #1367

Launch of 1.0 Preview 1 fails on Vista x64 SP1

2008-10-19 07:33 PM - alex -

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Build/Install	
Affected QGIS version:		Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 11427
Description		
Launch of 1.0 Preview 1 fails on Vista x64 SP1.		
Something to do with the x64 program files being located in 'Program Folders (x86)' and presence of brackets in folder path maybe?

- *Resolution set to fixed*
- *Status changed from Open to Closed*

I assume this is fixed with the new installer. Reopen it if appropriate.
