- Status changed from *Open* to *Feedback*

Which browse button is this for? A lot of these have been fixed already, but we need specifics...

#3 - 2015-11-10 04:19 AM - Giovanni Manghi

- Resolution set to *not reproducible*
- Status changed from *Feedback* to *Closed*

Closing for lack of feedback. Reopen if necessary.

- Status changed from *Closed* to *Reopened*

What do you mean by browse button ?

#5 - 2016-01-28 02:47 AM - Nyall Dawson

"It does not matter what location i am on, when i hit browse it always default to this location C:\\Program Files\\QGIS Wien\\bin"

Which 'browse' button are you hitting? We need specifics.

#6 - 2016-02-23 01:11 AM - baditaflorin -

On any subsection of the Vector, Raster Menu, if the tool have a Browse button to select a file, the location will be

Live Vector > analysis tools > Distance Matrix , and if i click Browse , this will be the default location where i will start to search for a file C:\\Program Files\\QGIS Lyon\\bin
