

QGIS Application - Feature request #1374

Add support for different proxy types

2008-10-23 06:08 AM - cfarmer -

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Web Services clients/WMS	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 11434
Description		
In addition to the http proxy support, it would be nice to be able to specify other proxy types: ex. socks 4 or 5

Hi,

I see that now in the qgis options there is the support for a few proxy types (see attached image). This answer the request?

#2 - 2009-07-16 08:40 AM - cfarmer -

- Resolution set to fixed
- Status changed from Open to Closed

Proxy support works nicely for me now, and as far as I know it is fully implemented for all tools that require proxy support...

Since I'm the one who started this bug, I suppose I'll be the one to close it...
