

QGIS Application - Feature request #13751

Rasterize

2015-11-04 01:56 AM - Per Gammerath

Status:	Open	Resolution: Copied to github as #: 21778
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
<p>When I export to PDF, a dialog suggests that I must print as raster due to advanced composition effects. Yet when printing as vector, the PDF result is perfect anyway. It annoys me that I have to deselect the rasterize option every time.</p> <p>I wish for an "Do not show this warning again" option.</p>

Would you consider an option in the settings dialog, fx "Never ask to print as raster"?

#2 - 2017-05-01 12:47 AM - Giovanni Manghi

- Easy fix? set to No
