Siempre se puede ver esta página en Español por tener [Google traducirlo para usted](#).

But you should try to use English to improve your chance of getting help.

For all the non-spanish speaking people, this is what the [Google-Translator](#) gave me:

Hello,

I have found that polygons are erased when using the tool to divide space objects.

However, the elements in the attribute table even appear.

Unfortunately I can't reproduce the error, neither on master nor on 2.12.

#2 - 2016-02-14 10:10 AM - Jürgen Fischer

- Resolution set to not reproducible
- Status changed from Open to Closed

closing for the lack of feedback. Feel free to reopen with steps to reproduce in English.
