QGIS Application - Feature request #13864

Add a more explicite error message when snapping fails

2015-11-22 12:57 PM - Harrissou Santanna

Status:	Open		
Priority:	Normal

Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	21887

Description

When snapping fails during digitising, QGIS says "could not snap to a segment on the current layer." This message doesn't clearly explain why it fails nor how user can fix it.

It has been discussed here and a proposal for how it should be fixed arose.
