Crashes QGIS or corrupts data:		Copied to github as #: 21918

Description

Trying to make simple Generic Action with capturing output (see attachments):

```
echo "Привет мир"
```

But in output window I see gibberish. It looks like encoding issue:

Starting echo "Привет мир"...

$$\partial_{\tilde{N}} \partial_{\tilde{D}} \partial^2 \partial_{\mu} \tilde{N} \partial^{1/4} \partial_{\tilde{N}}$$
