

## QGIS Application - Feature request #13901

### "Add Circular String" is not deactivatable by Settings > Customization

2015-11-29 08:17 AM - Thomas Nogatz

|   |                                     |
|---|-------------------------------------|
| <b>Status:</b> Open   |                                     |
| <b>Priority:</b> Normal   |                                     |
| <b>Assignee:</b>  |                                     |
| <b>Category:</b> Customisation Framework  |                                     |
| <b>Pull Request or Patch supplied:</b>  | <b>Resolution:</b>                  |
| <b>Easy fix?:</b> No  | <b>Copied to github as #:</b> 21923 |
| <b>Description</b>  |                                     |
| A possibility to deactivate the "Add Circular String" Button would be fine. Cannot find it in Settings > Customization > Toolbars > mDigitizeToolBar. |                                     |
