

QGIS Application - Bug report #13918

Curved placement re-orders Arabic text for labelling

2015-11-30 09:58 AM - Saber Razmjooei

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Labelling	
Affected QGIS version:	3.7(master)	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: end of life
Crashes QGIS or corrupts data:	No	Copied to github as #: 21940
Description		
<p>This is very similar to #6883</p> <p>To reproduce:</p> <ol style="list-style-type: none">1- Extract the zipped Spatialite and add it to QGIS2- Add label for "name" column, use Parallel for placement, it is as expected.3- Change the placement to Curved and the text is incorrect		

History

- Status changed from Open to Feedback

What's the actual issue here? Is it that the text isn't rendered right-to-left? It's hard for a non-arabic speaker to know what's involved here.

2 problems:

- 1- The Curved option, swaps the order of the text. In the parallel it is "Somewhere Street", and in the curved, it is: "TEERTS EREHWEMOS"
- 2- It also capitalises all the letters (not really the right term in Arabic...but close)

#3 - 2017-05-01 01:06 AM - Giovanni Manghi

- Regression? set to No

- Easy fix? set to No

#4 - 2019-03-09 04:09 PM - Giovanni Manghi

- Status changed from Open to Closed

- Resolution set to end of life

End of life notice: QGIS 2.18 LTR
