Description		
<p>Hi,</p> <p>I have been tricked a few times by this UI design.</p> <p>When doing a search in plugin installer, I use to type "Carriage return" to validate my entry (many tools need that).</p> <p>This should not be launching entire plugin upgrade, quite long and impossible to stop.</p> <p>In developpement tests, it can break configuration of plugin versions also.</p>
