QGIS Application - Bug report #14018
UNable to create Multiple map outputs on one print composer

2015-12-20 09:36 PM - MIchael O'Grady

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Map Composer/Printing			
Affected QGIS version:	2.12.0	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	not reproducable	
Crashes QGIS or corrupts data:		**Copied to github as #:**	22031	

Description

I am unable to put multiple map outputs on one print composer, each showing a different selection of attributes from the same layer and then export it. It always just exports all 4 maps showing the same output of the last select query i did.

More of a bug report? But if I'm doing it wrong? I have tried locking the layers to make them uneditable but it still won't work.

are you using the atlas tool? Can you be more specific about the layout and what you want to achieve? thanks!
