

QGIS Application - Bug report #14075

Composer scale Bar: The Map list is sorted according to items Z-order and not alphabetically

2016-01-08 05:33 AM - Harrissou Santanna

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: end of life
Crashes QGIS or corrupts data:	No	Copied to github as #: 22085
Description		
<p>In a composer, add many map items and a scale bar</p> <p>In Items tab or from View menu, change the z-order of the map items</p> <p>Select the scale bar. In the main properties of this item, maps are listed following the Z order you designed and not their alphabetic order.</p> <p>I think, when you have many map items, it's easier to choose the right one, knowing its name, than looking for its Z-position.</p>
