

QGIS Application - Feature request #14094

Increase allowed maximum value for Outline Width in Simple Marker dialog

2016-01-12 11:40 PM - Dražen Tutić

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Symbology	
Pull Request or Patch Supplied:	No	Resolution: fixed/implemented
Easy fix?:	No	Copied to github as #: 22101
Description		
In Simple Marker dialog box max value for Outline Width is 99.99 (inherited from QDoubleSpinBox?). If Map units are used for specifying Outline Width, and map is in small scale, larger values are needed, for example if map is printed in 1:3 000 000, line width of 0.2 mm is specified as 600 map units. Solution: In file QGIS/src/ui/symbollayer/widget_simplemarker.ui Add e.g. "<property name="maximum"> <double>100000.0000000000000000</double> </property>" to object <widget class="QgsDoubleSpinBox" name="mOutlineWidthSpinBox"></widget>
