QGIS Application - Bug report #14104
DB Manager: sequence issue when copying a table from a PostGIS schema into another

2016-01-14 11:06 AM - Paul Kanelli

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	DB Manager			
Affected QGIS version:	2.12.2	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	duplicate	
Crashes QGIS or corrupts data:		**Copied to github as #:**	22110	

Description

In QGIS 2.12.2 sequences of serial columns don't get lost when copying a table from a schema into another by drag and drop in the DB Manager (see Bug report #12956). Unfortunately the sequences don't consider existing rows. So it's impossible to add new features in the table.

ERROR: duplicate key value violates unique constraint "test_geometry_pkey"
DETAIL: Key (gid)=(1) already exists.
