

## QGIS Application - Feature request #14105

### DB Manager: 'Import vector layer' dialoge should remain open after importing a layer/file

2016-01-14 11:33 AM - Paul Kanelli

<b>Status:</b>	Open	<b>Resolution:</b> <b>Copied to github as #:</b> 22111

<b>Easy fix?:</b>	No	
<b>Description</b>		
<p>When creating a new table in the DB Manager the 'Create Table' dialogue remains open. That's a very useful feature when creating more than one table. But after importing a layer/file in the DB Manager the 'Import vector layer' dialogue is closed and all options got lost. So importing more than one layer/file isn't that user-friendly.</p>
