

QGIS Application - Bug report #14151

We couldn't free up space on the Clipboard. Another program might be using it right now.

2016-01-21 02:26 AM - Neil Wyatt Wyatt

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Unknown	
Affected QGIS version:	2.12.1	Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: not reproducible
Crashes QGIS or corrupts data:	No	Copied to github as #: 22153
Description		
<p>QGIS is a known cause of the above error in Microsoft Excel; (along with about 20 other programs).</p> <p>The error creates a dialogue box every time to drag a selection to copy it in Exel when QGIS is running.</p> <p>Yet I can't find the above in any bug report.</p> <p>It is making my life very difficult when trying to use QGIS alongside Excel.</p>

#2 - 2016-01-21 06:50 AM - Sebastian Dietrich

- OS version changed from W8.1 to 8.1
- Operating System set to Windows
- Status changed from Open to Feedback

Please post the **exact steps to reproduce**.

Opening Excel and QGIS 2.12.0 on Win7 pro 64 I can still cut/copy/paste and drag with the mouse within Excel as expected.

Please also try to **disable all plugins**, it could be a plugin that is blocking the clipboard.
