

QGIS Application - Feature request #1418

Layer Properties, Labels, buffer, multiline labels don't work

2008-11-21 01:31 PM - Gerhard Spieles

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	Vectors	
Pull Request or Patch supplied:	No	Resolution: worksforme
Easy fix?:	No	Copied to github as #: 11478
Description		
It isn't possible to show the content of a labeled field in more then one line, even the multiline field option is set.		

History

I have this problem too on MS Windows setup. I'm producing the labels from an Ubuntu server [[PostgreSQL]] view, and have tried both E'\n' and E'\n' (in case there is some system dependency on newlines).

For a screenshot of this problem, look at the qgis_labels.png attachment in #1444.

Still true? Please check with a newer version, and close it if appropriate

#3 - 2011-12-16 01:58 PM - Giovanni Manghi

- Target version changed from Version 1.7.0 to Version 1.7.4

#4 - 2011-12-25 08:46 AM - Giovanni Manghi

- Pull Request or Patch supplied set to No
- Status changed from Open to Closed
- Resolution set to worksforme
- Assignee deleted (nobody -)

Using the "text" edit widget to fill the column for labels result in having the labels correctly placed in many lines.
