QGIS Application - Bug report #14293
"Control feature rendering order" option checkbox has an unconsistent behaviour

2016-02-14 09:31 AM - Harrissou Santanna

Status:	Closed		
Priority:	Normal		
Assignee:	Matthias Kuhn		
Category:	Symbology		
Affected QGIS version:	master	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	duplicate
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	22284

Description

Add a layer and open layer properties dialog, Style tab

you'll remark that the "Control feature rendering order" option at the bottom of the dialog is already checked though no expression is set (see issue #14274).

Set an expression and apply.

Close the dialog

Reopen the dialog : the "Control feature rendering order" option is now unchecked, and the expression set is greyed.

User is confused : Is the rendering order option still active or not?
