

QGIS Application - Bug report #14355

Problem uninstalling/replacing QGis 2 8 3

2016-02-22 08:51 AM - Michel Duhalde

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Build/Install	
Affected QGIS version:	2.8.3	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: worksforme
Crashes QGIS or corrupts data:	No	Copied to github as #: 22339
Description		
<p>Dear Team,</p> <p>I wanted to update the version of QGis (from 2.8.3 to 2.12.3) on my computer but during the uninstallation process, I get an error message concerning the "preremove.bat" file (same problem than Bug report #8534, see attached file).</p> <p>The uninstallation apparently comes to an end, but actually, nothing is removed: the old version and all its components are still here</p> <p>I have tried to directly install the new version of QGis but it doesn't work out.</p> <p>Any idea to help me?</p> <p>Thank you in advance</p>		

History

#1 - 2016-05-24 12:42 PM - Alexander Bruy

- Category set to Build/Install

#2 - 2017-05-01 01:06 AM - Giovanni Manghi

- Easy fix? set to No

- Regression? set to No

#3 - 2018-09-23 10:13 PM - Jürgen Fischer

- Resolution set to worksforme

- Status changed from Open to Closed

- Description updated
