

## QGIS Application - Feature request #14386

### Being able to reset ellipsoid in Measurement options in Project properties

2016-02-28 02:51 AM - Harrissou Santanna

<b>Status:</b>	Open	<b>Resolution:</b> <b>Copied to github as #:</b> 22367
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Projection Support	
<b>Pull Request or Patch supplied:</b>		
<b>Easy fix?:</b>	No	
<b>Description</b>		
<p>In the Project properties --&gt; General --&gt; Measurements frame, one can change the ellipsoid to use for calculations. And it can be done just to check how things behave and then, in the long list of ellipsoid, not be able to find/remember the original ellipsoid. What about adding a reset button (for curious but non expert like me) that returns the original ellipsoid according to the project CRS? I don't know if it sounds coherent...</p>
