QGIS Application - Bug report #14387
Options dialog is set foreground even if QGIS doesn't have the focus

2016-02-28 02:55 PM - Harrissou Santanna

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Unknown		
Affected QGIS version:	master	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	not reproducable
Crashes QGIS or corrupts data:		**Copied to github as #:**	22368

Description

Select the measure tool and click in the map canvas.

From the small dialog opened, click on the **Configuration** button.

You get the Settings --> Options dialog.

Now, click inside another application, the Options dialog is still at the foreground although QGIS no longer has the focus.

Windows 10, QGIS 2.14.0

History

#1 - 2016-04-30 01:28 PM - Harrissou Santanna

Actually, it's the Measure dialog itself which is set foreground, and stay on the screen even if QGIS is not the active application.
