QGIS Application - Bug report #14393
SRS displayed in bookmark dock uses internal SRS ID, which is meaningless to users

2016-03-01 02:16 AM - Etienne Trimaille

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Projection Support			
Affected QGIS version:	2.14.0	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	not reproducable	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	22374	

Description

I'm trying to save some bookmarks but the projection is not the good one each time.

If my layer and my map are in :
- EPSG:32740, my bookmark will use EPSG:3190 (which is a wrong EPSG code for that area)
- EPSG:2975, my bookmark will use EPSG:942
- EPSG:4326, my bookmark will use EPSG:3452
- ...

it's very easy to replicate. Open one layer in QGIS, check the projection in your map canvas and then save a bookmark. Check the last column SRID in your bookmark list.

History

#1 - 2016-03-28 02:54 PM - Nyall Dawson

- Subject changed from Bookmarks doesn't save the good projection. to SRS displayed in bookmark dock uses internal SRS ID, which is meaningless to users

#2 - 2016-03-29 12:00 PM - R. R.

See duplicate #14548 for further information.

#3 - 2017-05-01 01:06 AM - Giovanni Manghi

- Easy fix? set to No

- Regression? set to No

#4 - 2018-01-19 09:45 AM - Etienne Trimaille

- Status changed from Open to Closed

It seems it has been fixed. I can't replicate this issue anymore.

#5 - 2018-02-22 11:38 AM - Giovanni Manghi

- Description updated

- Resolution set to not reproducable
