

QGIS Application - Bug report #14441

Labeling settings not properly restored after save style / load style

2016-03-08 02:55 AM - Daan Goedkoop

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Symbology	
Affected QGIS version:	2.14.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #: 22420
Description When going into layer properties and choosing "load style", the label settings in the dialog UI are not updated and if you close the dialog with "OK", no labels appear. However, if one chooses "load style" and then closes the dialog with "Cancel", the layer style is set correctly. (The loaded styling with labels appears after a refresh of the map canvas.)

I cannot compile / debug right now, but I guess that this might be related to issue #13667. Maybe the QgsLabelingWidget::adaptToLayer introduced to fix that bug doesn't trigger QgsLabelingWidget::labelModeChanged, or not at the right moment.

#2 - 2016-04-08 02:32 AM - Wouter Yperman

I can confirm this issue and the work around.
