QGIS Application - Bug report #14443
Reshape Feature Bug (last two vertices can't be edited anymore)

2016-03-08 06:55 AM - Christian Roettger

Status:	Closed			
Priority:	High			
Assignee:				
Category:	Unknown			
Affected QGIS version:	2.12.3	**Regression?:**	No	
Operating System:	Windows	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:		**Copied to github as #:**	22422	

Description

Hello,

when i reshape a feature i can't use the last two vertices or better, the cutting points. I tried to explain it in the attached files. This even doesn't work when i save my edits, close qgis and reload the shape or db table.
Please fix this, should be possible to close the hole without doing an extra step!
Doesn't work in 2.12.3 and 2.14.

Thanks
